1. Company Overview

MOHA Construction and General Service Company is a registered Somaliland-based construction and infrastructure enterprise established in **2020** and **headquartered in Hargeisa**, Somaliland. The company was founded by experienced professionals with a shared vision of contributing to sustainable infrastructure development through reliable, innovative, and high-quality engineering and construction solutions.

Since its establishment, MOHA Construction and General Service Company has steadily grown into a reputable service provider in the fields of construction, **water supply infrastructure, civil engineering works, solar-powered systems, sanitation facilities, and general engineering service operations**. The company has successfully implemented a wide range of projects for humanitarian organizations, private sector clients, institutions, and individual customers across Somaliland.

MOHA specializes in the construction, rehabilitation, and maintenance of residential and commercial buildings, boreholes, shallow wells, elevated water tanks, pipeline networks, drainage systems, roads, earth dams, sanitation facilities, and solar-powered water supply systems. In addition, the company provides technical consultancy, project supervision, logistics support, and engineering management services tailored to the needs of both public and private sector clients.

The company is built on the core principles of professionalism, accountability, safety, quality workmanship, and client satisfaction. Through its experienced management team, qualified technical staff, and commitment to timely project delivery, MOHA continues to strengthen its reputation as a trusted and dependable partner in infrastructure and community development projects throughout Somaliland.

Driven by the motto “Our foundation is trust. Our promise is reliability. Our standard is quality,” MOHA Construction and General Service Company remains committed to delivering sustainable, cost-effective, and impactful solutions that contribute to long-term social and economic development.

2. Company vision, mission, and core values;

2.1. Vision
